

How does a Sextant work?

What is a sun sight?

How do I find where I am?

Unlock the mystery on our

Intro to Astro

Weekend

28-29 March 2010

£110

This special weekend is aimed at anyone with an interest in navigating using the Sun, Moon and Stars.

The focus will be on practical use of the sextant and basic position fixing with just the minimum amount of theory being thrown in to make sense of the calculations!
